This list is intended as a guide in determining the classifications of businesses and occupations under the Industrial Welfare Commission Orders.

**These guidelines and classifications of employees are general in nature and the existence of specific facts and circumstances of the employment relationship and operations of a particular employer may require a different determination of proper classification that the general one set forth herein.**

As new types of businesses and occupations are constantly coming into existence, there undoubtedly are businesses and occupations that have not been included herein. Additionally, as industry practices and business structures evolve, circumstances may dictate the change in classification of a particular occupation from one wage order to another wage order.

Employers are advised that while courts may find this pamphlet to be useful in determining the classification of business and occupations under the Industrial Welfare Commission Orders, courts are not required to follow the classifications of occupations listed herein and that compliance with the guidelines suggested herein do not establish a "safe harbor" for classifying an employee within a particular wage order.
